

Pixel True High-Quality UI Kits Guide

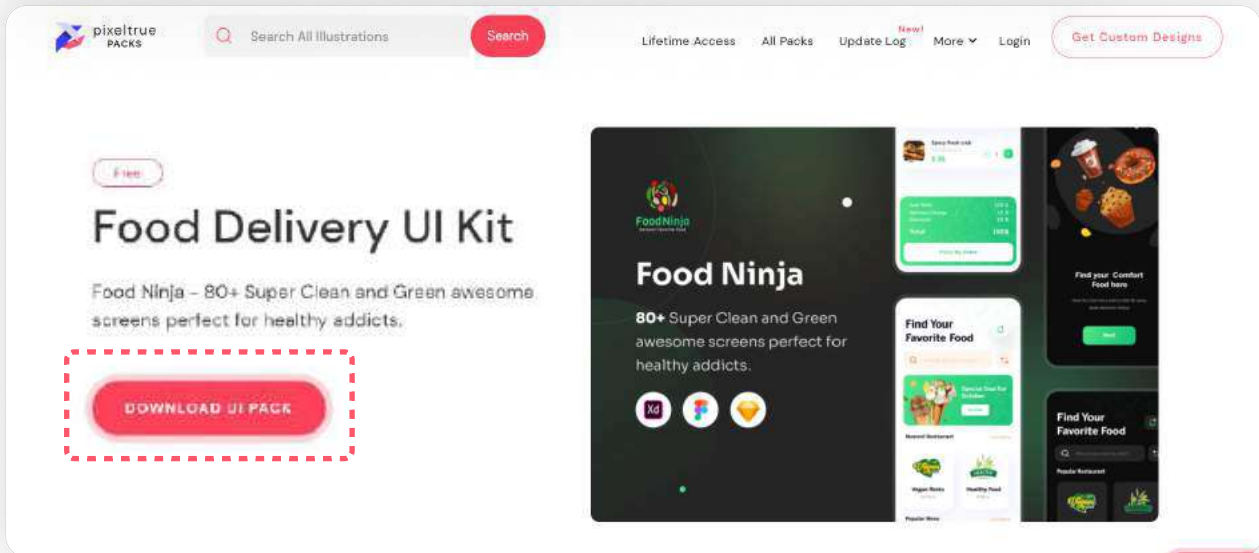

pixeltrue

How to download and import Pixel True UI kits

Step 1: Go to pixeltrue.com/free-ui-kits and pick a UI kit you like.
Download the free UI Kit by clicking the Download UI Pack button.

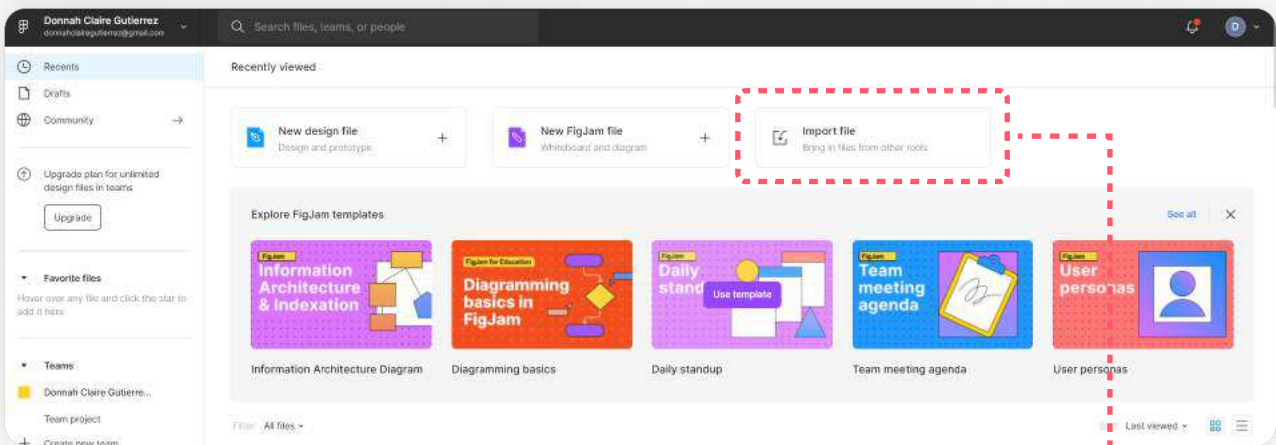

Step 2: After clicking the download button, the Figma file will automatically download.

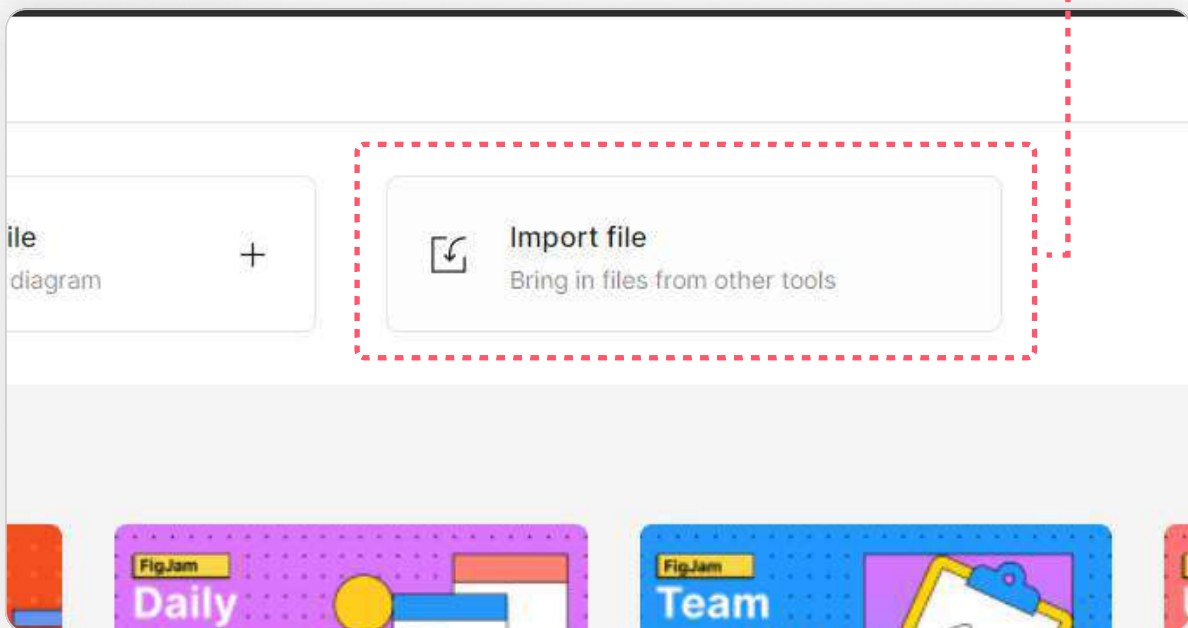

Step 3: Open and **log in to your Figma account**. If you're a new user, you might need to create a Figma account first.

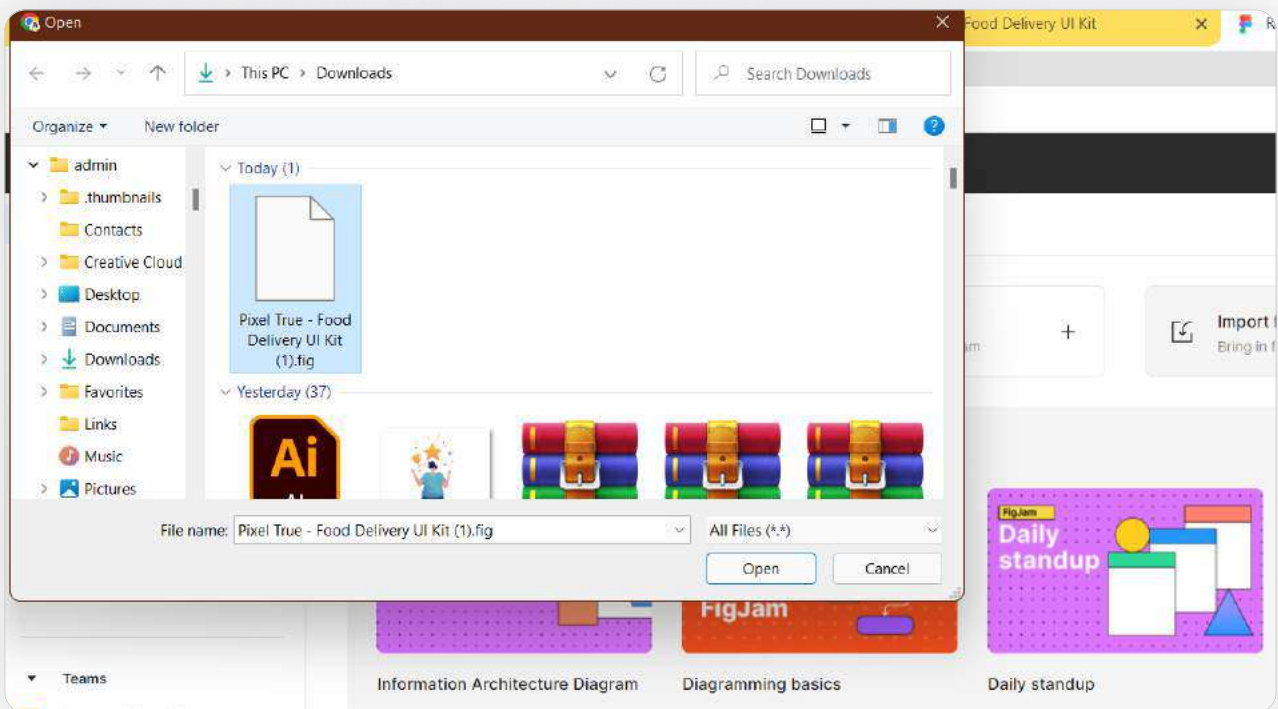

Step 4: After successfully logging in, you will be redirected to the Figma Homepage where you will see this:

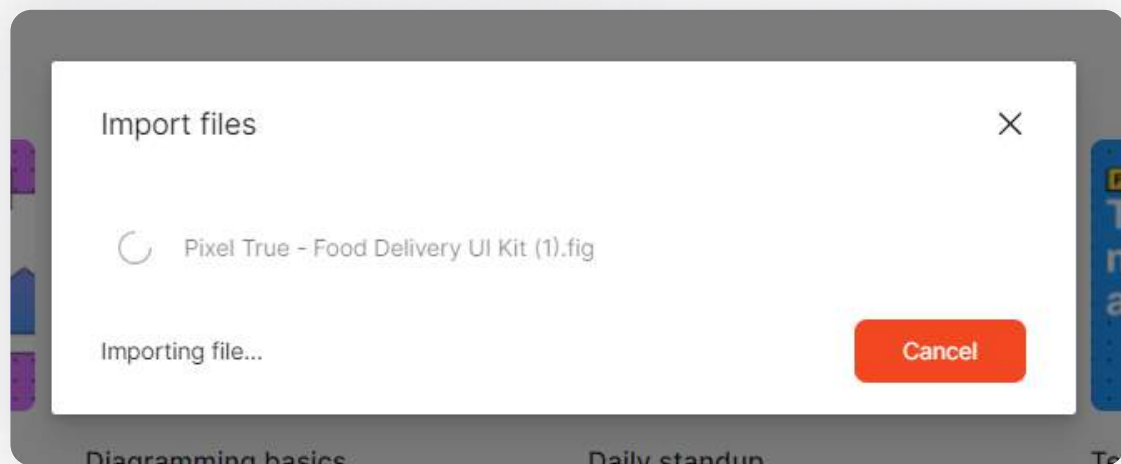

Click Import file

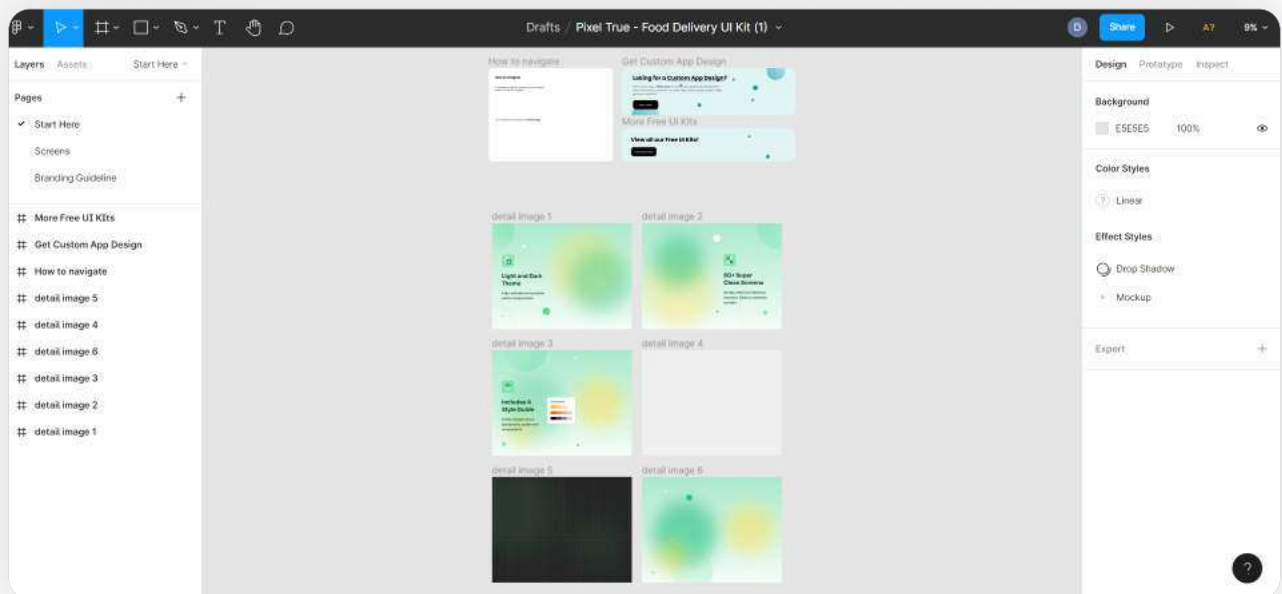

Step 5: Locate the Figma file in your folders and click open.

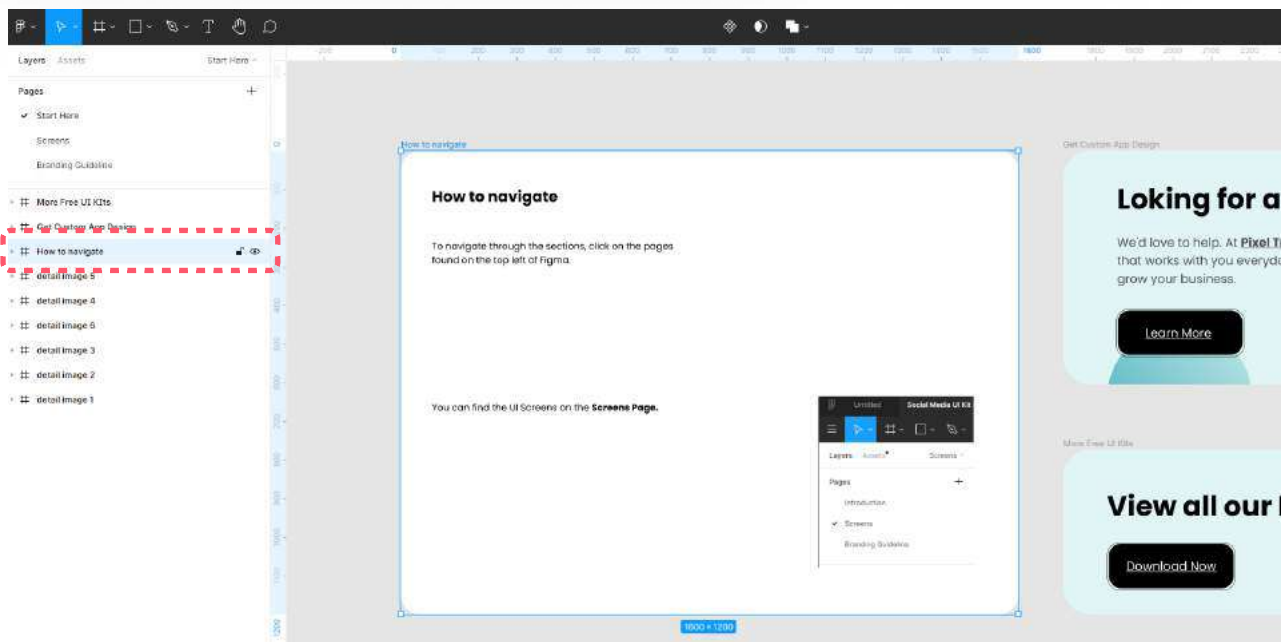

Wait for the file to be imported on Figma.

Step 6: Open the imported UI Kit file and you can now use the free UI Kits from Pixel True.

You will also **find the How to Navigate Frame** inside the Figma file to guide you on using the UI Kits from PixelTrue.
